

The Future of Transportation Reliability

Keynote speaker: Dr. Tim Lambert
Manager, Levitation and Guidance Systems
Hyperloop One

Tim Lambert is the manager of the levitation and guidance team at Virgin Hyperloop One. He has 7 years of experience designing electric machines, and several granted patents. Before joining Hyperloop One in 2017, he worked on a variety of electric vehicle technologies including sensorless controls, thermally conductive materials, and switched-reluctance motors.
